

GVNW Inc./Management

TARIFF F.C.C. NO. 2 (ACCESS SERVICE)

TRANSMITTAL NO. 200

ISSUED: October 27, 2004

EFFECTIVE: November 11, 2004

COST SUPPORT

Overview

In accordance with Federal Communications Commissions' (Commission) rules, GVNW Consulting, Inc.¹ (GVNW) submits the information below in support of proposed changes to access service, effective November 11, 2004 for Alhambra-Grantfork Telephone Company (Alhambra), an issuing carrier for GVNW Inc./Management Tariff F.C.C. No. 2.

Alhambra is filing rates, in this transmittal, under Section 61.38 of the Commission's rules.²

Alhambra is adding a DS1 High Capacity special access service. Since Alhambra's demand will only have one customer for the DS1, they have priced it by ratcheting their Voice Grade special access by the same ratio that NECA has between its Voice Grade special access and its DS1 High Capacity special access service. A worksheet is filed detailing the calculation.

Conclusion

Based on Alhambra's calculation of its access rates pursuant to the Commission's prescribed procedures, Alhambra believes its rates are just and reasonable. Requests for information can be made to:
